“ Donna was the most selfless, caring, beautiful soul. She welcomed me into her family as a daughter from the first moment we met when I was about to marry her son, S. John. We bonded easily and had many nice conversations, even when we didn't live anywhere near each other.

She was a wonderful nurse and respiratory therapist during her years working at hospitals. She loved taking care of people. She worked in neo-natal units and with the elderly. Not many people could do that. But Donna was so special.

We are so sad to know that she's not with us any longer. God gained an angel. We love you and we miss you, Mom.
