“ *I remember when I was pregnant with Sadie and thought I was going into labor. I called Aunt Narma and she was hurrying around to come get me and hit her nose on her garage somewhere and wore a scar from that. It was an ice storm that year and she was driving at least 80 with her blood on her face. I was nervous in general bc I thought I was in labor. We arrived in Enid safe and sound but it was a false alarm. We always laughed about that night and she told everyone Sadie gave that scar to her. She always told me how much she loved Trevor and Sadie and would do anything for them. She was the best and will be missed dearly*
